

Mission Opportunities

NewPointe Community Church partners with international church leaders to help them create a relevant church model. We also work in areas of the world that are virtually unreached due to lack of education, technology and resources.

The involvement of volunteers is essential to support our mission strategies. Trip members spend their time serving our partners, while having life-changing experiences themselves. As a result, their views of the world are changed and their relationships with Jesus Christ are strengthened.

We hope you will join us as we seek to spread His fame around the world. Check back periodically for new Mission Opportunities.
